

OTTOPUR Cleaner

SPECIAL

The gun cleaner

Solvent-based cleaning spray

For indoor and outdoor application

OPCLEAN

Characteristics

- ▶ Very strong cleaning effect
- ▶ Fitting screw-on adapter for all commonly used dosing guns
- ▶ Can be used as a spray can

Fields of application

- ▶ Cleaning of used dosing guns
- ▶ To remove unhardened PU-foam residues

Technical properties

Shelf life at 23 °C/50 % RH 12¹
[months]

1) from date of manufacture, store unopened cans upright

Important information

Easy coupling and uncoupling of the OTTOPUR Cleaner onto the dosing gun by means of dosing gun adapter; regular application considerably extends the product life and functionality of the dosing guns. Cured PU foam-residues can only be removed mechanically. Attention! OTTOPUR Cleaner can solubilize or discolour substrates (e.g. varnish, paint, plastics or textiles). Initial tests on a hidden spot are recommended!

Please note: Can is under pressure. Protect from UV-radiation and temperatures over +50 °C. Never remove the can by using force.

Application information

1. Can be used as cleaning spray (using the black spray button) in order to clean adapter ring and nozzle from uncured PU-foam.
2. Clean nozzle and adapter ring with cloth (e. g. paper).
3. Screw OTTOPUR Cleaner onto the gun.
4. Push trigger several times until no liquid is discharged. Aim the dosage tip of the gun towards a suitable collection container.
5. Once the gun is filled with OTTOPUR Cleaner leave for about 2 minutes to work, then repeat point 4.
6. Unscrew OTTOPUR Cleaner.

Due to the many possible influences during and after application, the customer always has to carry out trials first. Please observe the recommended shelf life which is printed on the packaging.
